RE: Mineral Lease Application 49955-LS

Dear Mr. Nielson:

The revised mine location map and legal description that you sent to me on August 18, 2005 with regard to the above numbered mineral lease application are not acceptable to the Trust Lands Administration. Please provide me with a map and legal description prepared and stamped by a Utah licensed professional engineer or professional surveyor showing the location of the proposed mine site.

I will take not further action to seek approval of your mineral lease application by the Director until I receive the above requested item.

Please be advised that the Trust Lands Administration has not granted Nielson Construction Company or any other party any authority or consent to commence mineral operations upon the lands within T11S, R9E, SLB&M, Section 32. Commencement of any mineral operations upon said lands without the express authority or consent of the Trust Lands Administration shall be treated as a trespass upon state trust lands pursuant to state law.

Please contact me if you have any questions in this matter.

Sincerely,

John T. Blake  
Mineral Resources Specialist
